Work Experience

Web Developer, RipeConcepts Inc. - Feb 2023–Present – Cebu City, Cebu, PH

RipeConcepts was founded by two award-winning entrepreneurs in 2008 with the sole aim of developing on-trend creative and tailored solutions for every client. After initially offering graphic design, we have since expanded our pool of talents and expertise to web and app development, animation, digital marketing, and employee leasing.

- Developed WordPress websites as our standard CMS, leveraging the Gutenberg plugin to create content-rich platforms for various projects.
- Developed 10+ custom plugins using PHP, Javascript, HTML and CSS to enhance website functionalities, effectively addressing 30% - 50% of specific project requirements.
- Collaborated with cross-functional teams to address and resolve bugs and issues across multiple projects.
- Provided valuable support and assistance to other projects, contributing to their successful completion and overall efficiency.

Software Analyst, Accenture - Dec 2018–Sep 2022 – Cebu City, Cebu, PH

Accenture is a global professional services company with leading capabilities in digital, cloud, and security. Combining unmatched experience and specialized skills across more than 40 industries, we offer Strategy and Consulting, Technology and Operations Services, and Accenture Song—all powered by the world's largest network of Advanced Technology and Intelligent Operations centers.

- Streamlined Salesforce Administration tasks, resulting in a 20% increase in workflow efficiency through process optimization
- Developed and updated Apex code, maintaining the performance and reliability of Salesforce applications with a 99% bug-free rate
- Supported Lightning Web Development, contributing to the creation of visually engaging user interfaces for improved user satisfaction.
- Leveraged AngularJs and ReactJs to deliver responsive and user-centric experiences, resulting in a 25% increase in website engagement.

- Successfully integrated new features and components, enhancing overall functionality and usability, leading to a 30% improvement in user experience.

Web Developer, Xsolus - March 2016–Nov 2018 – Cebu City, Cebu, PH

Xsolus is an IT solutions company specializing in blockchain technology applications, web and mobile app development. Composed of solution architects, software developers, UI/UX designers, and cryptocurrency enthusiasts, Xsolus is a Panama incorporated company with offices in Singapore and the Philippines, and affiliate offices in Hong Kong, Canada and the United States.

- Translated PSD designs into HTML and CSS, ensuring mobile responsiveness for optimal user experience.
- Developed WordPress websites from the ground up and utilized Theme Builders as per clients' specifications.
- Resolved front-end and back-end issues in WordPress, enhancing website performance and functionality.
- Proficiently installed and customized various plugins to extend website capabilities.
- Functioned as a Front-end web developer within the Web App department, utilizing Laravel and AngularJS technologies to create interactive and user-friendly applications.
